## User opinions

That's what people say about MP3 Sorter possibilities: "On our radio station, as on any other, is stored a large amount of music records. Some of them are played regularly, some of them not. To find needed music record in our audio archive, where are stored millions of files, is very hard. We had to hire a special employee, who categorized records in archive, but even such solvation was not perfect - we periodically received several thousands of records in a day, and a person who organized them, could not sort them all and made a lot of errors. All this unsorted music records collected, collected and collected... One day while real-time broadcasting music clips, prepared to transmission, were lost in all this chaos, and we were forced to break transmission. My colleague from another radio station called me, when knew about incident, and advised to use MP3 Sorter. MP3 Sorter sorted all our MP3 music collection exactly as I want. Over several hours all our millions of MP3's were sorted and even if we are gathering several thousands of new audio records in some days, MP3 Sorter easily append them to common music base - right from audio CD's! Thanks very much to all MP3

Sorter developers. MP3 sorter, that they made, really helps people."

David Bronson, sound producer of radio-station "Voice of Colorado",

## Our Mission

Lets tell about the role of MP3 sorter in our life and in the state of our MP3 music collections. Today life is impossible to imagine without information, and information - without files. By reports, provided by independent researches, now more than 95% of information is stored in files.

In the far 1970's, when first floppy disk was invented, it had 0,1 Megabyte size and often hold up to 15 files. As you see, MP3 Sorter here was not needed - there is no MP3 music files to sort. In 1980's was invented CD disk, that already had 500 Megabyte size and could hold already thousands of files. In 1990's became popular DVD disks, that could carry already dozens of thousands of files. Today most of files are stored on HDD (Hard Disk Drives), that are presented in every computer. They have size beginning from 80 000 Megabyte and hold millions of documents. How to sort MP3 music files, stored on the such hard drive, without the help of such powerful MP3 sorter as MP3 Sorter?

And we need to sort MP3 music files with automatic MP3 sorter even more - several weeks ago was already started production of Hard disk with 470 000 Megabytes size, that is able to store already milliards of documents in variety of formats.

More and more MP3 music files are need to be sorted with MP3 sorter every day. When on a computer are stored such variety of files, especially if they are packed in numerous of archives, it is extremely hard to navigate between them. People often don't know, what files and where are stored.

MP3 music files are collected and collected on your hard drive, CD and DVD disks. When in a folder several hundreds, or even thousands of files with names like "640info.txt", "important(12).doc", "mp312.rar", "confer64.avi", "d12.zip" it will be needed days, or even weeks and months to understand, what is what, rename all and move all in folders, according to content.

And what we get without an MP3 sorter? The whole directories are deleted, cause there is no possibility to find out, what is inside and use such content. Now you see - You are in the danger! Is any salvation of such heavy situation? Yes, and it is - MP3 Sorter .

MP3 Sorter - Music of All Types

will be Sorted

From the MP3 sorter name - "MP3 sorter" - you may see that MP3 Sorter - is music sorting software that sort MP3 music. MP3 music is very important music file format; music files in this format are presented on the each computer, inside of every music collection. MP3 Sorter sort all types of MP3 music files, including MP3 music files with ID3v1, ID3v2, ID3v3, ID3vX and many other music file tags.

But it is not all - such powerful music file sorter sort, organize and automatically rename not only music files in MP3 format - it also sort music in the HUNDREDS of different music and media formats.

Let's look on several most popular music file formats, music files in whose are sorted, renamed and organized by MP3 Sorter. We will try to provide all main information about this music formats and how they are sorted by the MP3 Sorter. Let's start from the popular one:

MP3 - MP3 Sorter will Sort all your MP3 music  
MP3 music format &ndash; is the most popular audio file format from all today existing. &ldquo;MP3&rdquo; abbreviation means MPEG Audio Layer 3. MP3 is an audio (music) compression format, created by Moving Picture Experts Group. As you may see from MP3 Sorter name, sorting of MP3 music files &ndash; is the primary role of this high-grade MP3 sorter. MP3 music files use MPEG Layer 3 audio compression. MP3 music files are widely spread as storages of music and audio books on computer hard drives. If you are listening music on your computer &ndash; then, most likely, you are listening content of MP3 music files. All MP3 music files may be automatically sorted with MP3 sorter using all existing MP3 music sorting methods. MP3 sorter can sort all your MP3 music by genre, by artist, by album, by recording year and in any other way you like. MP3 Sorter even has a special MP3 sorting wizard for automatic MP3 music sorting. MP3 music file format can provide near-CD music records quality sound, what is a 16-bit stereo audio. Because of high-quality compression algorithms, MP3 music files, compressed in such quality, will have size in more than 10 times less than

WAV or AIF music files with the similar quality. MP3 music files may have different compression levels that are named &ldquo;Bit Rate Levels&rdquo;. Higher bit rate level gives more high quality but result MP3 music file, even after sorting by MP3 Sorter and appending to your MP3 music collection, will take more space on your hard drives. Common MP3 music file bit rate levels are 128 kbps, 160 kbps and 192 kilobit per second. MP3 Sorter is so powerful that you may sort MP3 music files with this MP3 sorter even by MP3 music file bit rate. If you will ask MP3 Sorter to sort your MP3 music files by their bit rate values, MP3 music files with different record quality levels will be located in the different directories. MP3 music files are played by at least all music software players and portable music players as well, such as Apple iPod, Microsoft Zune and many others. MP3 Sorter also has high-quality MP3 music player and can automatically play sorted MP3 music.

Other Music Files - MP3 Sorter will Sort your Music files in all formats

MP3 Sorter sort not only MP3 music files of all types and such wide-spread music file formats as AAC, WMA, RA or OGG. MP3Sorter also sort, rename and automatically organize hundreds of other music file formatsThe number of music file formats, sorted, organized and automatically renamed by MP3 Sorter is constantly increasing. With this powerful MP3 sorter you always may be sure that all your music files, even if some of them are of rare types and are packed in archives, will be sorted, renamed and organized &ndash; easily and exactly as you want.
